

OCTOPALOOZA!

Sat, January 23
11:30am-2:30pm

At Aquarium of the Bay, we celebrate cephalopods of the world through an entire week of fun activities, crafts, and presentations! Join us as we bring some of these engaging activities to the Bay Model for this octo-tastic event. We'll experiment with market squid dissections using squids from the sustainable seafood we feed our animals at Aquarium of the Bay.

Plus, we'll have an "octopus course" with fun challenges to find the inner cephalopod in all of us!
