

# SCIENCE

## *Tangled Web -*

## Plankton, Plastics, & Us

*Sat  
June 18*

*11:30am - 2:30pm*

Why is our Bay so deliciously green? Discover all the microscopic life of the Bay and how they affect our dinner! We'll delve into how the oceans are changing with a tide of plastics that have weaved themselves into our food web. Make your own plastic free artwork and discover more about the massive food web of the San Francisco Bay and where we fit in.
