

**ALAMEDA CREEK
CONTINUING AUTHORITY, SECTION 1135**

PROJECT LOCATION AND DESCRIPTION: The Alameda Creek Flood Control Project, completed in 1975, is located in Alameda County, California. It was designed to provide flood protection to the metropolitan areas of Union City, Fremont, and Newark. This Section 1135 study examines whether structural impediments to fish passage, associated with the existing flood control project's channel and drop structures, may be modified for the improvement of anadromous fish passage and habitat. The non-Federal sponsor for this project is the Alameda County Flood Control and Water Conservation District.

TOTAL FUNDING:

TOTAL COST:	\$ 8,000,00
FEDERAL COST:	\$5,000,000
NON-FEDERAL COST:	\$3,000,000

TOTAL FEDERAL COST THROUGH FY04:	\$ 400,000
FISCAL YEAR 2005 BUDGET:	\$ 350,000
COST TO COMPLETE:	\$7,250,000

FY 04 AND 05 ACCOMPLISHMENTS: The Detailed Project Report (DPR), which will define the Without Project Condition (F3), identify viable alternatives and define the National Environmental Restoration Plan (NER), will be initiated. The DPR will be the basis for project approval and construction and is scheduled for completion in January of 2006.

ISSUES AND OTHER INFORMATION: In their Letter of Intent, the non-Federal sponsor acknowledges that they understand there is a Federal limit of 5 million dollars for this project and that the non-Federal sponsor will be responsible for any costs over and above the Federal limit.

CONGRESSIONAL INTEREST: 13th District, Rep. Pete Stark

DISTRICT: San Francisco
