

**ALAMEDA CREEK  
CONTINUING AUTHORITY, SECTION 1135**

PROJECT LOCATION AND DESCRIPTION: The Alameda Creek Flood Control Project, completed in 1975, is located in Alameda County, California. It was designed to provide flood protection to the metropolitan areas of Union City, Fremont, and Newark. This Section 1135 study examines whether structural impediments to fish passage, associated with the existing flood control project's channel and drop structures, may be modified for the improvement of anadromous fish passage and habitat. The non-Federal sponsor for this project is the Alameda County Flood Control and Water Conservation District.

TOTAL FUNDING:

TOTAL COST:	\$131,000
FEDERAL COST:	\$131,000
NON-FEDERAL COST:	\$0
TOTAL FEDERAL COST THROUGH FY 2007:	\$ 131,000
FY 2008 BUDGET:	0
COST TO COMPLETE:	\$0

FY 07 ACCOMPLISHMENTS: No work is anticipated for FY07 since the study was not funded. Those studies that are named in appropriations reports are given higher priority for funding.

FY 08 ACCOMPLISHMENTS: If funded in FY08, the Detailed Project Report would be initiated. Analysis would include definition of the Without Project Condition, identification of viable alternatives and definition of the National Environmental Restoration Plan.

ISSUES AND OTHER INFORMATION: This study is suspended indefinitely due to the lack of funding.

CONGRESSIONAL INTEREST: 13th District, Rep. Pete Stark.

POINT OF CONTACT: Deputy District Engineer for Civil Works, Arijis Rakstins 415-503-6720
