

**ESTUDILLO CANAL
GENERAL INVESTIGATIONS**

PROJECT LOCATION AND DESCRIPTION: The study area is located within the City of San Leandro, California and about 15 miles southeast of San Francisco. The watershed drains into the San Francisco Bay, with a drainage area of approximately 10 square miles. A substantial number of properties within this densely populated area are designated as being in a Federal Emergency Management Agency floodplain. The study will evaluate potential flood damage reduction alternatives in a highly developed area.

TOTAL FUNDING:

TOTAL COST:	\$ 3,631,000
FEDERAL COST:	\$ 1,861,000
NON-FEDERAL COST:	\$ 1,770,000
TOTAL FEDERAL COST THROUGH FY 2007:	\$ 1,436,000
FY 2008 BUDGET:	\$ 600,000
COST TO COMPLETE:	\$ 0

FY 07 ACCOMPLISHMENTS: The Feasibility study was initiated and a public workshop was held in February 2006. Efforts to define the without project conditions, including hydrology, hydraulics, and biological and environmental conditions and without project damages will be presented in the spring of 2007. Problems, opportunities and constraints have been defined and project planning objectives prepared.

FY 08 ACCOMPLISHMENTS: The performance measures will be screened and evaluated for alternative formulation in FY08.

ISSUES AND OTHER INFORMATION: none.

CONGRESSIONAL INTEREST: 13th District, Rep. Pete Stark

POINT OF CONTACT: Deputy District Engineer for Civil Works, Arijs Rakstins, 415-503-6720
