

**MOSS LANDING HARBOR
CONTINUING AUTHORITY, SECTION 111**

PROJECT LOCATION AND DESCRIPTION: The project is located approximately 95 miles south of San Francisco in the City of Moss Landing, in Monterey County, California. The harbor is protected by a 954-foot north jetty and a 516-foot south jetty, built in 1946. This study will address an erosion problem that may be caused by the manner in which the jetties were constructed.

TOTAL FUNDING:

TOTAL COST:	\$ 3,000,000
FEDERAL COST:	\$ 3,000,000
NON-FEDERAL COST:	\$ 0

TOTAL FEDERAL COST THROUGH FY05:	\$ 0
FISCAL YEAR 2006 BUDGET:	\$ 0
COST TO COMPLETE:	\$ 3,000,000

FY 05 AND 06 ACCOMPLISHMENTS: If FY 05 and 06 funds became available, completion of an Initial Assessment and initiation/completion of a Feasibility Study and Detailed Project Report could occur.

ISSUES AND OTHER INFORMATION: The Moss Landing Harbor District General Manager requested Corps assistance with an erosion problem that appears to be caused by the jetties. The way the jetties were built appears to cause an “eddy” effect to the south of the entrance channel, creating erosion on the immediately adjacent property and an extremely high volume of sediment deposition on the next adjacent property.

CONGRESSIONAL INTEREST: 17th District, Rep. Sam Farr

POINTS OF CONTACT: LTC Kiley (415) 503-6700 and Deputy District Engineer for Civil Works, Arijs Rakstins (415) 503-6720

DISTRICT: San Francisco
