

**MOSS LANDING HARBOR  
OPERATIONS AND MAINTENANCE**

PROJECT LOCATION AND DESCRIPTION: This project is located about 95 miles south of San Francisco, in Monterey Bay. Project operations and maintenance provide for 3-year maintenance dredging of an entrance channel 200 feet wide and a lagoon channel 100 feet wide, at -15 feet at Mean Lower Low Water (MLLW). The total length of the combined channels is about 3,200 feet, with widening at the junction of the entrance and lagoon channels, and at the very end of the inner lagoon channel. Two jetties are also periodically inspected and maintained.

TOTAL FUNDING:

TOTAL COST:	\$ N/A
FEDERAL COST:	\$ N/A
NON-FEDERAL COST:	\$ N/A
TOTAL FEDERAL COST THROUGH FY 2007:	\$ 1,310,000
FY 2008 BUDGET:	\$ 0
COST TO COMPLETE:	\$ N/A

FY 07 AND 08 ACCOMPLISHMENTS: FY07 funds will be used to perform scheduled periodic maintenance dredging. If funds are available in FY08, repairs will be made to the damaged breakwater.

ISSUES AND OTHER INFORMATION: Winter storms have damaged the jetties which will lead to increased shoaling and danger to navigation.

CONGRESSIONAL INTEREST: 17<sup>th</sup> District, Rep. Sam Farr

POINT OF CONTACT: Deputy District Engineer for Civil Works, Arijs Rakstins 415-503-6720
