

**REDWOOD CITY HARBOR
OPERATIONS AND MAINTENANCE**

PROJECT LOCATION AND DESCRIPTION: Redwood City Harbor is located on San Francisco Bay in San Mateo County, California. Project operations and maintenance provides for 2-year cycle maintenance dredging of the main ship channel, which has an authorized project depth of - 30 feet deep at Mean Lower Low Water (MLLW), and two turning basins. Redwood City Harbor is a deep draft, high use port with commercial tonnage of close to two million tons moving through it each year. Major commodities are aggregates for the booming south bay construction industry, recycled scrap metal and recycled petroleum products.

TOTAL FUNDING:

TOTAL COST:	\$ N/A
FEDERAL COST:	\$ N/A
NON-FEDERAL COST:	\$ N/A
TOTAL FEDERAL COST THROUGH FY 2007:	\$ N/A
FY 2008 BUDGET:	\$ 0
COST TO COMPLETE:	\$ N/A

FY 07 AND 08 ACCOMPLISHMENTS: If funding is available it will be used to prepare plans and specifications, sampling and testing of the channel material and environmental documentation necessary for a dredging contract.

ISSUES AND OTHER INFORMATION: A long-term study is planned for channel deepening to better accommodate existing port facilities. The San Francisco District is also partnering with the sponsors, the U.S. Fish and Wildlife Service (USFWS) and Redwood City, to promote the beneficial reuse of dredged material for such uses as creation of endangered species habitat on Bair Island. This serves the dual purpose of better facilitating the dredging disposal process and enhancing the overall Bay Area wetlands restoration program. USFWS is expected to have Inner Bair Island prepared for receipt of dredged material by 2008.

CONGRESSIONAL INTEREST: 12th District, Rep. Tom Lantos; 13th District, Rep. Anna Eshoo

POINT OF CONTACT: Deputy District Engineer for Civil Works, Arijs Rakstins 415-503-6720
