

March 10, 1999

To Interested Citizens:

Thank you for your continued interest in the Russian River Watershed Community Council. Our next meeting will be held on Saturday, March 27<sup>th</sup>, 1999 at the Veteran's Memorial Hall in Cloverdale at 205 West First Street. We have enclosed an agenda for your convenience.

At the last meeting on January 23, the Council discussed options for supporting Council meetings while we wait for a decision by the California Resources Agency about state support for the Council. As a result of that discussion, Interaction Associates has offered to facilitate our next meeting free of charge, the North Coast Regional Water Quality Control Board has agreed to do the mailings for the time being, and Sonoma County will provide the facility.

If you have any questions about the Council, feel free to call us at the numbers below, or contact Cathy Bleier, Resources Agency Russian River Coordinator, at 916-322-9721. Council minutes, handouts, the Proposed Watershed Management Study Plan, and other items are available on the internet at <http://www.spn.usace.army.mil/russian/>.

Sincerely,
