

Russian River Watershed Community Council

Mission Working Group

March 8, 1999

Mission Proposal for Council Consideration:

“The mission of the Russian River Watershed Council is to protect, restore, and enhance the biological health of the Russian River and its watershed through an open, community-based process which facilitates communication and collaboration among all interested parties.

Our primary goals are:

- 1) Recovery of the Russian River and its watershed to a condition such that the native wild anadromous fishery recovers to healthy and sustainable levels.
- 2) To ensure a strong, healthy and diverse economy in the Russian River region.
- 3) To promote stewardship of the Russian River and its watershed by developing an informed and engaged citizenry.

We agree to the following operating principle:

That nothing done to implement the mission and goals of the watershed council shall be done at the expense of other watersheds.”
