

Princeton Shoreline Feasibility Study

Community Meeting

The U.S. Army Corps of Engineers, San Francisco District, in partnership with the San Mateo County Harbor District, is evaluating solutions to ongoing shoreline erosion caused by the federal breakwater along the Princeton shoreline in Pillar Point Harbor. The public is invited to participate in a NEPA scoping meeting for the Princeton Shoreline CAP Section 111 Study to provide input on the project; all comments will become part of the public record and be considered in the final NEPA document.
