

DEPARTMENT OF THE ARMY
SAN FRANCISCO DISTRICT, U.S. ARMY CORPS OF ENGINEERS
450 GOLDEN GATE AVENUE
SAN FRANCISCO, CALIFORNIA 94102

PUBLIC NOTICE

**REQUEST TO ALTER US ARMY CORPS OF ENGINEERS CIVIL WORKS PROJECT
PURSUANT TO 33 USC 408 (SECTION 408)**

Section 408 Request ID: 408-SPN-2020-0001

Requester: Santa Clara Valley Water District

Alteration Being Proposed: Conduct maintenance activities on a gas pipeline adjacent to the San Leandro Creek Flood Control Project.

Description of Alteration: The purpose of the proposed project is to maintain and tie in a three-inch diameter carbon steel nitrogen line to the existing six-inch pipeline. The existing line was installed prior to the construction of Valley Water Flood Protection Project along Coyote Creek under Coyote and Berryessa Creeks, Coyote Creek Project Element Reach 3B project. The existing line is on the outboard side and parallel to the levee toe. It is offset by approximately 4'-6" from the outboard toe and is approximately 4'-8" below grade. The existing line will be exposed by mechanical excavation. All excavation work will be beyond the toe of the levee. The excavation will be shored throughout construction and backfilled with a flowable controlled density fill within the District's right of way. The shoring from the excavation will be removed. The trench beyond Valley Water right of way will be a traditional sand bed capped with native and paved within the parking area.

Location of Alteration: The project site is located along the Coyote Creek at 1755 McCarthy Boulevard in Milpitas, California.

Comment Period Expires: December 14, 2020

Submitting Comments: Please submit written comments by December 14, 2020 to the following address.
