SAN FRANCISCO DISTRICT, U.S. ARMY CORPS OF ENGINEERS
450 GOLDEN GATE AVENUE
SAN FRANCISCO, CALIFORNIA 94102

PUBLIC NOTICE

REQUEST TO ALTER US ARMY CORPS OF ENGINEERS CIVIL WORKS PROJECT PURSUANT TO 33 USC 408 (SECTION 408)

Section 408 Request ID: 408-SPN-2021-0002

Requester: Soquel Creek Water District

Alteration Being Proposed: Construction of approximately 1.2 miles of new paved multi-use public trail along San Leandro Creek Flood Control Project.

Description of Alteration: The overall Pure Water Soquel Project involves the construction of water treatment facilities, conveyance pipelines, and groundwater injection wells. The requester is specifically seeking a 408 permit at the project's crossing of the San Lorenzo River and associated levees. The alternation involves trenching through the levees on either side of the San Lorenzo River and mounting two separate conveyance pipelines, one for source water and one for reverse osmosis concentrate, to the Laurel Street Bridge. The pipelines will cross the river itself attached to the existing Laurel Street bridge structure, one on the north side of the bridge and one on the south. The pipelines will approach the crossing in a combined trench before diverging to either side of the bridge structure.

Location of Alteration: San Lorenzo River at Laurel Street (Laurel Street Bridge) in Santa Cruz, CA.

Comment Period Expires: February 26, 2021

Submitting Comments: Please submit written comments by February 26, 2021 to the following address.
