

MARIN CITY EMERGENCY ACTION & RESILIENCE PLANNING INVESTIGATIONS

PROJECT LOCATION AND DESCRIPTION

This project convenes local, state, and federal partners to prepare a flood Emergency Action Plan (EAP) for the City of Marin City. Guided by the Marin City Community Services District, USACE convened several workshops with numerous agencies to document roles and responsibilities, and flood preparedness and response actions aimed at protecting the health, life safety, and well-being of Marin City residents immediately before, during, and after a flood.
